

NETIPHONG SINGKAEW

SOFTWARE TESTER

SUMMARY

Hello, I'm a third-year Software Engineering student at the University of Phayao, seeking an internship opportunity as a Software Tester. I am highly motivated to improve my knowledge and skills, with a strong passion for self-development. I possess strong teamwork and communication skills, which I believe will make a positive contribution to any project I join.

EDUCATION

University of Phayao | 2023 - Present

PROJECT

Mala Restaurant POS System Web Application (Team Project) | Jan 2025 - Mar 2025

Role: Frontend Developer and Software Tester

Developed a comprehensive web-based management system for a Mala restaurant, featuring inventory control, dynamic product listings, sales reporting, employee management, and data visualization through sales summary graphs.

TaskTime Task Management Web Application (Team Project) | Jan 2024 - Oct 2024

A task management tool that helps users organize and track their work systematically.

(2nd Place at the SE Academy Event 2024)

Role: UX/UI Designer and Frontend Developer

Project of an Event Management System Website, which integrates a dynamic scheduling system, allowing users to create, edit, and delete events. The system utilizes FullCalendar for calendar views, Supabase for user authentication and real-time database management.

Ontravel Web Application (Team Project) | Feb 2024 - Mar 2024

Role: UX/UI Designer and Frontend Developer

Developed a web application focused on travel and accommodation booking, designed to enhance user experience in discovering and planning trips across Thailand.
